CAREER OBJECTIVE

To obtain a software development opportunity where problem-solving skills, knowledge of Data Structures and Algorithms, Object-Oriented Programming and project experience can be applied to build impactful software solutions. Committed to continuous learning and contributing to organizational success.

EDUCATION

2024 – 2028	Kongu Engineering College, Erode B.Tech in Information Technology	CGPA: 9.35/10.0 (as of Semester IV)
2024	M.S.P. Solai Nadar Memorial Higher Secondary School, Dindigul Higher Secondary (Class XII) - State Board	84.6%
2022	M.S.P. Solai Nadar Memorial Higher Secondary School, Dindigul Secondary (Class X) - State Board	68.4%

TECHNICAL SKILLS

Languages	Java, Python, C
Web Technologies	React.js, JavaScript, HTML5, CSS3, Node.js, Express.js, Flask
Databases	MySQL, MongoDB
Tools & Platforms	Git, GitHub, VS Code
Core Concepts	Data Structures and Algorithms, Object-Oriented Programming
Areas of Interest	Database Management Systems, IoT Systems

PROJECTS

Smart Home Energy Monitoring System

[GitHub](#)

Built an IoT-based energy management system for real-time monitoring of household electricity consumption. Integrated energy forecasting, daily cost analytics and remote appliance control through web dashboard.

Technologies: HTML5, CSS3, Python, ESP32, Arduino IDE, Blynk

Medi Route – Smart Ambulance Traffic Control System

[GitHub](#)

Built a smart ambulance management system that connects ambulance drivers with nearby hospitals for real-time hospital selection, bed booking and emergency coordination. Implemented IoT-enabled traffic signal control to establish green corridors and improve emergency response time.

Technologies: React, JavaScript, MongoDB, Arduino UNO, Arduino IDE

Civic Connect – Civic Issue Reporting Platform

[GitHub](#)

A web-based platform that allows citizens to report local civic issues such as road damage, waste management and water supply problems. It enables authorities to efficiently track, update and resolve issues through a user-friendly interface.

Technologies: HTML5, CSS3, JavaScript, MongoDB, Node.js, Express.js

ACHIEVEMENTS

- Ranked among the **Top 5% of students** at Kongu Engineering College based on academic performance during the academic year 2025–26.
- Secured **First Prize** in the **Mini Hackathon (First-Year Exclusive)** and **DevForge (College Level Hackathon)** at Kongu Engineering College for developing the Smart Home Energy Monitoring System.
- Selected as a **Finalist** in the IEEE National-Level Paper Presentation conducted at **NIT Srinagar** for the paper titled *“Smart Energy Management System: Real-Time Monitoring, Billing and Weather-Aware Predictive Consumption using IoT and a Web Dashboard”*.
- Solved **500+** coding problems across LeetCode, GeeksforGeeks and Codeforces.
